**The improvement goal for Readiness in 2014 is for schools, districts and the state to improve their 2010 Readiness percentage by at least fifty percent (50%). The improvement goal is derived by subtracting the 2010 readiness percentage from the maximum of 100% readiness, then dividing by two. This value is then added to the 2010 percentage to establish a 50% improvement goal for 2014.

*** Industry-recognized career certificate.
